

A Touch of Australia

The Inspiration

This bouquet was inspired by my birthday. I was given this amazing bunch of native flowers, that were uniquely Australian and I wanted to create a wedding bouquet that was just that, uniquely Australian.

The Creation

This bouquet is made from Dried Native flowers with Real Touch and Silk Roses. The gum leaves are dried but still have that smell of the Australian Bush.

I hope you love it as much as I loved to make it.

'We love to create beautiful, bespoke pieces for your special day'

'Beautiful accessories designed and crafted by hand especially for you'

Forever  yours
